# COMPETITION GUIDE

## Greetings from the President of Norwegian Multisport Assosiation

Welcome to Norway and Hamar, and welcome to this first event of this size in Norway.

I am very proud welcoming you all to this event in Hamar.

The Norwegian Multisport organization is a very young organization founded in 2007. We take great pride in being able to organize a good event for you all.

Hamar is a small but nice city and the hotel, Scandic is known as one of the best hotels for disabled in Norway, so we hope that you all will have some nice days here.

Boccia in Norway is open for everybody; old, young, disabled or non disabled can take part. The last 4 years we have worked hard with recruiting players with severe disabilities. Boccia in Norway is one of the few sports where players with server disabilities can play and compete. We are therefore happy that we now can show Boccia at this level in Norway.

Have a nice weekend and a good competition.

Greetings from

Hedi Anne Birkeland  
President  
Norwegian Multisport Assosiation

## Competition Format

According to rules of CBC, competitions are to be organized on a two-part basis: a preliminary stage of pool rounds, followed by Finals Stage of Single Elimination Round where Sides progress or are eliminated (knock-out).

## Choice of Pool Number and Pool Size

The elimination ratio of 40% to 70% is observed. In view of the time constraints, the maximum number of pools (based on the criterion of no less than 4 sides in each pool) would be chosen.

Choice of number of pools and KO entry are listed in the following table with reference to the number of entries for each division of play.

There are just 11 entries on class BC4. The 12 entry combination will be followed.

Combinations of entry-pool-KO

## Pool Constitution

The constitution of pools is based on the Boccia Official World Ranking List 2011 published on the CPISRA, website dated 2011/8/26: <http://www.cpisra.org/bocrank/2011-09-13/index.htm>

Sides will be seeded according to World Ranking. Every Side with a current World Ranking shall be seeded and put in pools accordingly. Sides not on the world rankings will be placed in pools randomly through the Official Competition Draw at the Team Managers Meeting.

## Determining the Final Position of sides within a Pool

The following criteria should be used to determine the position of sides in a pool once all the matches have been completed. If any sides are in an equal position after one criterion has been applied then the next criteria should be used until the sides have been separated into positions.

1<sup>st</sup> - Matches won (the number of matches won by each side, in descending order).

2<sup>nd</sup> - Point difference (the total number of points scored, minus the total number of points conceded, in descending order).

3<sup>rd</sup> - Point for (the total number of points scored in descending order).

4<sup>th</sup> - Tie-break end (the winner of an additional tie-break end).

The Team Managers will be informed of match start time for the tie-break end.

## Progression From Pool Rounds to Elimination Rounds

Apart from the 1 or 2 direct advancers, there would be point-qualifiers from some of the pools progressing into elimination rounds, as elaborated above.

The following criteria are applied to determine the point-qualifiers. If any sides are in an equal position after one criterion has been applied then the next criteria should be used until the sides have been separated into positions.

1<sup>st</sup> - Average point difference (the total number of points scored, minus the total number of points conceded, divided by the number of matches played, in descending order; points obtained in tie-breaks will not be counted).

2<sup>nd</sup> - Average point for (the total number of points scored, divided by the number of matches played, in descending order; points obtained in tie-breaks will not be counted).

3rd - Tie-break end (the winner of the extra end). The Team Managers will be informed of match start time.

The winning Sides of Elimination matches progress to the next Elimination round, and losing Sides are eliminated from the competition. Those Sides that lose at the semi-final stage shall play for the Bronze Medal.

## Final Positioning Criteria 1 (for sides lost in one of the Elimination Rounds)

The following criteria should be used to determine the final positions of sides which lost in one of the Elimination Rounds. Only the result of the respective finals match should be used when applying the criteria. For example, if the criteria are being used to determine the positions of the losing quarter finalists, only the results of the quarter finals should be used when applying the criteria. Any previous Elimination Round results and Pool results should be ignored. If any sides are in an equal position after Criterion One has been applied then the Criterion Two should be used, and if there is a tie, then Criterion Three should be used. If there is still a tie, then the sides should be ranked equally.

**Criterion One (points difference)...** The number of points scored, minus the total number of points conceded, and placed in descending order

**Criterion Two (points for).....** The total number of points scored, and placed in descending order

**Criterion Three (previous round)...** If it is the 1/4 final, then criterion 1 and 2 should be applied to the 1/8 final, or results of pool in case the sides only played one elimination round (follow the “Final Positioning Criteria 2” in the next section).

## Final Positioning Criteria 2 (for sides not progressed beyond pools)

The following criteria should be used to determine the final positions of sides which failed to progress to the Elimination Rounds. If any sides are in an equal position after one criterion has been applied then the second criterion should be used. If there is still a tie after Criterion Four is applied, then the sides should be ranked equally<sup>1</sup>.

**Criterion One  
position )** Final position of sides within a pool in  
descending order (pool

**Criterion Two  
won )** The number of matches won by each side,  
in descending order (matches

**Criterion Three  
(average points difference )** The total number of points scored, minus the total  
number of points conceded, divided by the number of matches  
played, in descending order.

**Criterion Four  
(average points for )** The total number of points scored, divided by the  
number of matches played, in descending order.

<sup>1</sup> The same ranking points will be allocated. For example, for the 2 players both ranked 11 place in case with 16 entries, both will be allocated 3 points according to the point system of the Boccia World Ranking System 2010.
